

Md. Jinnat Islam

MERN Stack Developer
Rangpur, Bangladesh

[Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Detail-oriented MERN Stack Developer proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and Git/GitHub. Hands-on experience building 3 full-stack web applications featuring secure REST API integrations, robust database management, and authentication via BetterAuth and JWT. Practical software engineering background equipped to engineer reliable, scalable web solutions for fast-paced development teams.

TECHNICAL SKILLS

Languages	: JavaScript (ES6+), HTML5, CSS3
Frontend	: React.js, Next.js (App Router), Tailwind CSS, Daisy UI, Hero UI, Shadcn UI, Framer Motion
Backend & Auth	: Node.js, Express.js, BetterAuth, JWT, RESTful APIs
Databases	: MongoDB (NoSQL)
Tools	: Git, GitHub, VS Code, GitHub Copilot, Claude Code, ChatGPT, Gemini

PROJECTS

Fable – Ebook Publishing & Marketplace Platform

[Live](#) | [GitHub](#)

- Developed a **full-stack** digital publishing platform using **Next.js, React, Tailwind CSS, HeroUI**, and **MongoDB**, featuring **multi-role access control** for Readers, Writers, and Admins.
- Integrated **Stripe Checkout** to process secure book purchases and implemented an **automated one-time writer onboarding verification fee** to gate dashboard access.
- Built **role-based analytics dashboards** equipped with **dynamic sales tracking, ebook lifecycle management**, and **session-guarded route protection**.

DocAppoint

[Live](#) | [GitHub](#)

- Engineered a full-stack doctor appointment platform** using React.js, Node.js, Express.js, and MongoDB, enabling users to dynamically browse doctors, view profiles, and manage bookings.
- Implemented secure authentication & JWT authorization** with Google/GitHub social logins, password validation, dynamic route protection, and state persistent sessions.
- Built a responsive dashboard with real-time CRUD operations** allowing patients to book, update, and delete appointments instantly, alongside custom search functionality and SEO metadata.

SkillsSphere

[Live](#) | [GitHub](#)

- Developed a full-stack online learning platform using Next.js (App Router)**, Tailwind CSS, and DaisyUI, featuring dynamic course cataloging, real-time title search, and smooth page animations.
- Integrated secure authentication with BetterAuth** incorporating Google OAuth, credential-based auth with password validation, dynamic profile updates, and protected route management.
- Engineered a scalable architecture with JSON-based API routing**, custom loading states, interactive Swiper.js/Motion UI components, and zero-error client-side route handling on deployment.

EDUCATION and CERTIFICATION

National University (B.A)
Specialized Training in Full-Stack Web Development & Agentic AI
Web Development | Programming Hero
